

1 ABSTRACT OF THE DISCLOSURE

2 This invention generally relates to an activity wipe dispenser and multi-pack
3 arrangement for use during a variety of different activities; and, more particularly, to an
4 activity wipe dispenser adapted for attachment to different articles and for storage of
5 used wipes as well as to a multi-pack arrangement comprising a plurality of activity wipe
6 dispensers each having different and complementary active components particularly
7 useful in connection with different aspects of a specific activity.
